ABOUT ME

I am a fresh architecture engineering graduate with a proven ability to work in diverse cultural environments. I excel as a team member, especially in challenging design projects, and possess extensive knowledge of various programs to meet deadlines and ensure compliance. Now, I am seeking a challenging career in a reputable organization to continuously improve my skills while contributing to the organization's goals.

EXPERIENCE

Participation in Arab Environment 2018-2019

Dhofar University | Oman

Participating in Arab Environment Day has ignited my passion for creating a greener, more sustainable world through architecture. Exploring cutting-edge technologies and eco-friendly materials has inspired me to design spaces that harmoniously coexist with nature and empower communities.

Participation in competition UIA 2020 Rio 2019-2020

Dhofar University | Oman

The competition focused on addressing social challenges and improving the lives of residents in Mare-Complex. It reinforced the architect's role as a catalyst for positive change, advocating for inclusive design solutions

Trainee as architecture engineer 2021-2022

Omani Engineering Consultancy company | Oman

learning how to incorporate client requirements, functional needs, and aesthetic considerations into the design.
