## Summary

Innovative and dedicated senior software engineer with a proven track record in developing robust and scalable solutions. Specializing in technologies such as C#, C++, WCF, WPF MVVM, Entity Framework, and .NET, I thrive in Agile environments and excel at driving digital transformation. With expertise in building ERP applications, web services, and RESTful APIs, I deeply understand the full software development lifecycle. Adept at collaborating with cross-functional teams, I leverage my strong problem-solving skills and attention to detail to deliver impactful solutions. Passionate about staying at the forefront of technology trends, I continuously expand my skill set to incorporate cutting-edge tools like Azure Functions, CI/CD, Azure DevOps, Terraform, Python, Azure AD, Azure Service Bus, and Dev Express. With a Bachelor's in Computer Science and a commitment to driving innovation, I am dedicated to empowering businesses and transforming ideas into reality.

## Technologies

IoC Containers: Castle Windsor Container, Unity, Structure Map, Ninject, AutoFac

ORM : Entity Framework Core, Sugar ORM

C# Unit Testing Frameworks: NUnit, xUnit, MSTest

Database: oracle, MySql, SqlLite, MongoDB

Servers: Apache, Xamp/Wamp, Sql Server, IIS

Git : GitLab, GitHub, Jira, Atlassian, Source tree

## Experience

### Senior Software Engineer

TenX

Oct 2021 - Present (1 year 11 months)

- Proficient back-end developer with expertise in C#, Azure Functions, and SQL.
- Experienced in architecting and developing robust and efficient solutions.
- Skilled in designing and implementing back-end systems that meet business requirements.
- Utilized Azure Functions to leverage serverless computing for scalable and cost-effective applications.
- Designed and optimized database structures using SQL to ensure data integrity and efficient query execution.
- Perform Azure DevOps
- Maintain and develop CI/CD pipelines
- Consistently delivered reliable and performant software solutions.
- Committed to meeting the needs of users and stakeholders through high-quality code and seamless functionality.

### Software Engineer

NETSOL Technologies Inc.

Jul 2019 - Oct 2021 (2 years 4 months)

### Associate Software Engineer

Novapex Software Technologies

Nov 2017 - Jul 2019 (1 year 9 months)

### **Teacher Assistant**

Punjab University College of Information Technology, Lahore

Oct 2017 - Feb 2018 (5 months)

## **Education**

### **University of the Punjab**

Bachelor of Applied Science (B.A.Sc.), Computer Science

2014 - 2018

### **American School of International Academics**

High School, Pre Engineering

2000 - 2013

## **Skills**

ASP.NET MVC • C# • ASP.NET Web API • Web Development • Web Services • Sdlc • Software Development • Azure DevOps Server • Terraform
